1. Nature of Operations

Royal Road Minerals Limited ("Royal Road" or the "Company") was incorporated under the *Companies (Jersey) Law 1991* on May 6, 2010 as "Tigris Resources Limited". On April 10, 2015, the Company changed its name to "Royal Road Minerals Limited" and amended its share capital structure by converting all of its par value shares to no par value shares and consolidating its then outstanding shares on the basis of two pre-consolidation shares for every one post-consolidation share. On April 15, 2015, the Company completed a business combination transaction (the "Arrangement") by way of an arrangement under the *Business Corporations Act* (Alberta), whereby the Company acquired its wholly-owned subsidiary Royal Road Minerals Canada Limited ("RRMC"), a corporation resulting from the amalgamation of Kirkcaldy Capital Corp. ("Kirkcaldy") and Royal Road Minerals Canada Limited. As a result of the Arrangement, on April 20, 2015, the ordinary shares (the "Ordinary Shares") of the Company were listed and commenced trading on the TSX Venture Exchange (the "TSXV") under the trading symbol "RYY". The Company's registered and head office is located at Ground Floor, Portman House, 32 Hue Street, St. Helier, Jersey, Channel Islands, JE2 3RE.

The Company carries on its operations in Colombia through its wholly-owned subsidiaries, Royal Road Accelerator (Jersey) Minerales Camino Real, SAS ("RRM Colombia") and Exploraciones Northern Colombia Exploration ("ENC"); in Nicaragua, through its wholly-owned subsidiary, Minerales Camino Real Nicaragua, SAS ("RRM Nicaragua"); and in Argentina through its wholly-owned subsidiary, Minerales Camino Real Argentina ("RRM Argentina").

Colombia

In 2022, the Company focused most of its efforts in target generation and drilling the Guintar Niverengo Margaritas project and in adjacent properties over which it has an option to acquire. It also has conducted regional exploration activities in Caldas. In Southern Colombia, the Company maintained its various agreements with the goal of formalizing informal mine operations within its mining titles. Previously, Royal Road had entered into six mining formalization agreements in Nariño. The Agreements were negotiated and entered into under the framework of the Colombian government's National Policy for Mining Formalization wherein specific portions of the area held under concession by the Company will be returned directly to informal miners so that new formalized concession contracts over such returned areas may be granted, enabling legal and responsible mining operations to take place. In exchange, Royal Road will receive a quarterly royalty equivalent to 3% of the ore extracted from the formalized concessions and has been granted the sole and exclusive right to carry out all exploration activities on the formalized concessions and the right to acquire 70% of the formalized concessions, subject to the completion of certain exploration milestones. In-case the Company assists in further optimizing mine operations on formalized concessions, Royal Road may increase the royalty to be received by a further 1%.

Mineros S.A. Transaction

During the year ended December 31, 2020, the Company entered into a definitive strategic alliance agreement (the "Agreement") with Mineros S.A. ("Mineros") in relation to the Company's Guintar and Niverengo concessions and its Margaritas title application ("GNM Project") in Antioquia District, Colombia. The Agreement supersedes the previously announced letter of intent entered into by the Company and Mineros. Mineros is a Colombian public company engaged in the business of gold mining and listed on the Bogotá Stock Exchange. Royal Road currently operates in Nicaragua under a separate exploration strategic alliance formed in September 2017 with Mineros' subsidiary, Hemco Nicaragua S.A.

The Agreement contains the following basic terms:

- Mineros agree to pay to Royal Road the sum of \$1,384,210 (US \$1 million) on execution of the Agreement. The parties agree that, upon making such payment, they will operate the GNM Project on a joint venture basis with Royal Road as operator.
- Mineros has the option (the "First Option") to acquire a 25% interest in the GNM Project by providing Royal Road with US \$1 million for the exploration of the GNM Project.
- If Mineros exercises the First Option, Mineros has the option (the "Second Option") to acquire an additional 25% interest in the GNM Project by providing Royal Road with a total of US \$1.5 million in additional funding for the GNM Project and thereafter, Royal Road and Mineros would each hold a 50% interest in the GNM Project Company.
- Mineros and Royal Road will agree to an initial exploration program and budget for the exploration of the GNM Project and; prior to any exercise of the Second Option, the parties will agree to a second program and budget for the further exploration of the GNM Project.
- At any time after Mineros has acquired a 25% interest and if at such time Mineros elect not to exercise the Second Option, Mineros may elect to cause all titles and the rights to title applications with respect to a designated project area to be transferred to a newly formed special purpose company (the "Project Company"), initially to be owned as to 75% by Royal Road and as to 25% by Mineros.
- If Mineros elect to exercise the Second Option and after Mineros has acquired a 50% interest, the titles and the rights to title applications with respect to a designated project area will be transferred to a Project Company to be owned as to 50% by Royal Road and as to 50% by Mineros. Thenceforth the parties would jointly-fund the operations of the GNM.
- Project in accordance with the parties' respective interests, which would be subject to dilution under a standard formula. The Board of the Project Company will be comprised of directors who represent the parties and the number of such directors will reflect proportionately each party's interest from time to time, provided that if a party's interest reduces to less than 25%, it will not be entitled to any representation on the Board.
- If a party's interest is diluted to below 15%, such interest will convert to a 1.5% net smelter royalty. Royal Road will be operator of the exploration of the GNM Project for so long as it maintains not less than a 50% ownership interest in the GNM Project.

Mineros exercised the first and second option to earn 50% of the GNM Project.

El Aleman

In December 2021, the Company announced that it has entered into two binding Heads of Agreements with respect to, a mining concession contract (the "Concession Contract") owned by titleholders (the "Titleholders") and an application (the "Application") for a mining concession contract, owned by an individual applicant and its nominees (the "Applicants"). The properties underlying the Concession Contract and the Application are, in each case, located proximal to the Company's Guintár copper and gold project in Antioquia Department, Colombia.

The Heads of Agreements contain the following basic terms:

- An initial payment (the "Option Payment") of, in the case of the Concession Contract US\$150,000 and in the case of the Application US\$100,000, which provides Royal Road with the exclusive right to earn an 80% interest in the Concession Contract and in the Application, respectively.
- A subsequent payment, in the case of the Concession Contract, of a further US\$100,000 once certain regulatory approvals are attained and, in the case of the Application, a further US\$150,000 on the conversion of the Application to a concession contract.
- In the case of the Concession Contract, Royal Road will be responsible for all properly incurred obligations, liabilities, expenses and regulatory costs related with regulatory approvals up to a capped limit of US\$500,000.
- At any point following the Option Payment, Royal Road may exercise its option to acquire an 80% interest in the Concession Contract by making a one-time payment of US\$2.25 million and in the Application by making a one-time payment of US\$1.125 million.
- In both cases, the 20% interest retained by the Titleholders and the Applicants, respectively, will be free carried until a successful feasibility study is delivered in connection with or incorporating the relevant property, at which point this interest will be converted to a 2% net smelter returns royalty in relation to metals extracted from the underlying properties, which may be purchased by Royal Road for US\$20 million in the case of the Concession Contract and US\$10 million in the case of the Application.
- Royal Road shall have a right of first refusal on any sale of either of the 20% interests up until the point of conversion to a net smelter royalty.

The terms and conditions set forth in the Heads of Agreements create binding legal obligations on the parties. The parties will enter into Definitive Agreements which shall be based upon and incorporate the form and substance of these Heads of Agreements.
